Hardcover | 560 pages

This collection, compiled by award-winning scholar Professor Julien Chaisse, explores the three distinct tracks of China's investment policy and strategy: bilateral agreements including those with the US and the EU; regional agreements including the Free Trade Area of the Asia Pacific; and global initiatives, spear-headed by China's presidency of the G20 and its 'Belt and Road initiative'. The book's overarching topic is whether these three tracks compete with each other, or whether they complement one another - a question of profound importance for the country's political and economic future and world investment governance.

FEATURES

- Combines legal, economic and international relations perspectives, to provide a comprehensive analysis of the subject
- Brings together a group of experts in the field, exploring the most recent issues in international trade law
- A variety of illustrations support and elucidate the contributors' arguments

Julien Chaisse is a Professor at The Chinese University of Hong Kong (CUHK).

This database is searchable by signatory States, particular treaty and year of signature. It also indicates when the treaties entered into force, and whether they refer to the ICSID Convention or Additional Facility arbitration and conciliation. The data is non-exhaustive and is based on information provided by governments or found on governmental websites. ICSID makes every effort to ensure the completeness of the information in this database but cannot warrant its accuracy. The full text of most of these treaties, as provided to ICSID by signatory States, can be found in ICSID's multi-volume collection, Investment Treaty Series. Other investment treaties concluded on a multilateral basis or as chapters in a free trade agreement are listed separately.
