I live in eastern Ukraine and count on this dictionary in my daily life around the city. Dictionary is quite complete, but a lot of technical terminology is missing. It has car words like the engine and transmission, but not much more detail than that. If you are With a mechanic on your car, you will be a little help. Other specific and detailed conversations will go beyond its abilities as well. It covers more medical disturbances, some legal terms, and some scientific words, but not enough to help the user through an educated conversation. The "flash card" is a beautiful feature. This does not have the "cases and conjugation of verbs tables" that I have Seen in some of the other expensive electronic dictionary applications. All-in-everything, this was a good application until iOS 5 came out. Now he died as the dictionary is nothing but meaningless words. I'm waiting patiently on Collins don't solve this bug so I can use again. I bought this since he had the largest dictionary. In comparison, the most words could only be fluff. I would like to look for one that has the "conjugation of the verbs" and "declination of words for different cases of" tables in them. He will make the conversation much more understandable for native Russophones.
