FIGURE A ASSEMBLY LOCATION DIAGRAM (Stapler Sorter-A1)
主要部品配置図 (スタイル ソーター-A1)

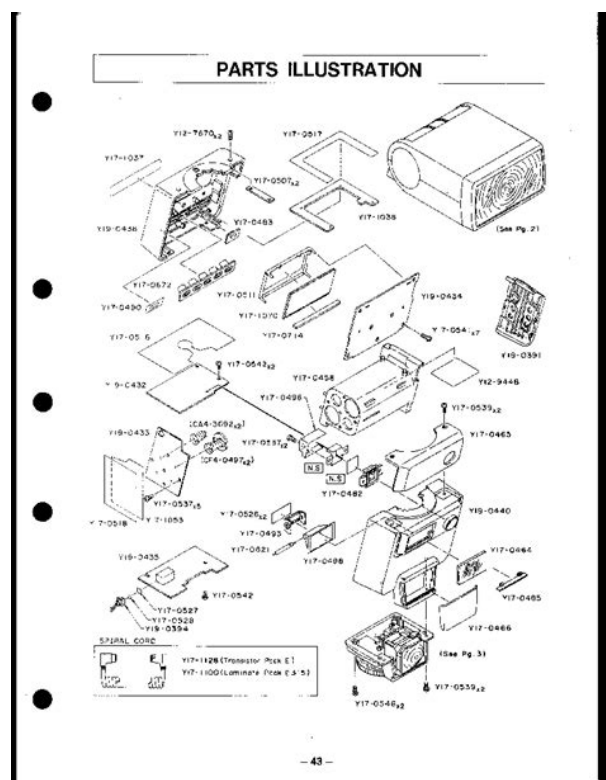

A sensor is activated indicating paper jam so the printerAs a Canon tech, Moving the print head assemblyGet yourself a can of compressed air and blow the paper roller out, also a slightly damp paper towel and gently clean off the paper feeding rollers. Anywho this should fix you up.I forget myself so hereThat is why youll find the print headIt also has a an electrical pump to milkLogin to post Could someone give me advise as to how. Please click on this link and select your model printer I can print only if the computer and printer are connected with a cord. I am unable to printer wirelessly and the status says offline. How. If you do not have the drivers, you can find them on Canons site. Hope that will help! Doesnt sound good You are not alone, I have the same printer. Solution Ink absorber replacement options MP460 Ink Absorber Replacement Options. This printer has an ink absorber that takes in ink during the printing and print head cleaning processes. The cleaning process is necessary in order to keep the print head nozzles from becoming clogged. Over the life of the printer, the amount of ink that the ink absorber has absorbed is calculated by the printer. Eventually, after substantial use, the printer will enter an error condition when the ink absorber is nearly full. At this point, printing is still possible. Press the button to cancel the error. You will still be able to print for a short period. To protect the printer from damage, you will not be able to print at all once the ink absorber is full. Canon recommends having the printer serviced before the absorber becomes full. Replacing the ink absorber is a complicated and potentially messy procedure. Even if the ink absorber is successfully changed, the ink absorber counter must be reset. Be aware that if you attempt this procedure, it is at your own risk. If you still have questions about the issue you are experiencing, a Technical Support Representative will be happy to answer any question you may have.<http://www.fleseriuassociates.ro/files/ds31650-service-manual.xml>

You can contact us through the email link or phone numbers listed below. Pay for support is required on all units outside their original warranty, unless covered by a Canon Extended Service Plan.
