Even though the program runs slowly, and not all email addresses will be valid (~25% may be "guesses" from the program), the customer service is very good and they are extremely responsive. We are able to find contact information for business leads that we would not otherwise be able to find on our own.Pros: What I like most about LeadGrabber Pro is the ability to find email addresses for leads that I normally wouldn't be able to find through other methods. You just need to upload the company, website, contact name, and LinkedIn URL (so some research required), but the program does the rest with appending email address, and even phone number if needed. Customer service is also unparalleled. They are extremely responsive, friendly, and competent to trouble-shoot if needed.Cons: What I like least about LeadGrabber Pro is the length of time it takes to run. It takes a couple minutes per lead, which can really add up if you're finding leads on a long list. Many times, I need to let the program run overnight or over the weekend to complete the list uploaded. The time varies per contact record, but I would say that it usually takes 1-2 minutes per lead. Verified ReviewerStaffing and Recruiting, 11-50 employeesUsed the software for: 1-2 years By clicking on the link, you will be leaving the official Royal Philips Healthcare ("Philips") website.
