Advertisement Add New Question Question Why doesn't Microsoft Word give me the option to "Save as PDF" in the file menu? A special type of software (technically called add-in) has the ability to convert Microsoft Word documents to PDF. However, Word 2007 does not include this add-in by default. To convert to PDF with Microsoft Word 2007, you have to download the add-in from Microsoft's website. Question I need to convert a PDF file to a Microsoft Word document. Is there a way to do this? Open up your PDF document and select "Save as -> Word Document." You'll need to clean it up afterwards (remove paragraph signs, reformat, etc.). Question How do I fix the glitches and formatting errors that show up in the new PDF file? The latest versions (after MS Office 2007) allow you to save the document as a pdf, thus avoiding formatting errors. Go to Files->Save As and select ".pdf format" from Save As Type. Click to save.
